What does a vote nican ?

By voting for the Van Buren locofoco ticket, every man says exactly in the same manuer, as if he put it in writing and signed his name to it

I am in favor of the sub-treasury scheme am satisfied, that every thing has been managed. as it should have been that we do not need a National Bank, but that the experiments, under which we group and are crushed are wise and just, and we hope will be persevent in, that it was right to withhold the sounth installment of the Surplus Revenue, that it is right to throw should be the last to be abandened on American Pertitions under the table, without reading, or having any action upon their whatever

Every man who votes for the Preble & Williams candidate, John Fairfield, (two of the selling out Commissioners) says, back out from the onward course of the Boundary There is no mistake about this it is too clear for doubt although politicians may say differently now, just before election, yet all their papers have taken that ground So too, every man must say whether he approves of the policy in relation to the new settlers, or not. If he does, he will vote the Whig ticket, if he does not, he will go for Fairfield and Emery and Bradley. No man can say, with truth, I oppose the sub treasury and approve of Gov Kent's course upon the Boundary, and yet, I will vote against him! Is a man preparatory to the coming election, as may be bound to go against his own convictions of right because certain party men say "too the mark " If any man has a particle of honesty and in-

In a few days, we shall be called upon to deposit our votes for State officers and members of Congress, and I wish to say a word or two to my friends, the unchanged demograts, who believe that the schemes of the administration are radi-"Mr Patton moved a suspension of the rules cally wrong, and the Sub-treasury a scre was ton and dangelous folly

We have suffered much and long, we have forgiv en much and overlooked more for the great dem folly of our rulers, embarransed and impoverished. And we cannot and we will not longer support such an administration in all these things we substantially agree with the great mass of the fair minded and honest Whigh By speaking with them at this time we shall utter a united voice, which will be felt and will be heeded. Let it be remembered, that the administration party has distinctly put the question to the people, whether they are in favor of the sub-treasury, and will look to the wote in each State as the onswer. IfMr Fairfield is not defeated and Mr. Kent is not elected, the cry will be, waine is not

Now, I think all who are against the Yuin and devastation party ought to unite and speak together, this time If we do, the days of this party and this administration are numbered Let us remember the good old maxim, "united we stand, divided we fall "

No man by voting for the Whig ticket, this year, nece ferily joins that party. He is free to act with them or against them, hereafter. But I must in candor say, I am in general well sak ished with the State administration, this year. 1 at us all, I say, now speak through one trumpet, and we shall make a norte which will reach W vington. mead This!

The strange, 'tie presing strange, INT 'tie no stranger than 'tie true. I undertook to proselyte, but was mysell prosklyted I went to convert another, and was mysalf converted Yes, Mr Editor, a few weeks since I was on a visit to my native County, and while there rode out some six or eight mries, to converse with an old acquaintance whom I was informed had strayed from the Democratic fold After the usual salutations we entered into conwersation, and soon finding an opportunity to introduce the subject of my mission, adopted the united mode of operating upon retractory mem bers of the party, alternately coaxing, ridiculing and brow beating, heaping upon him, in quick succession, the epithets renegade, federalist, vellow belly, &c All this, however, he repelled as mere party slang, and I soon found myself under the necessity of acting on the defensive, and finding my efforts worse than useless, I boully left the field entirely to him. He had, he said, early unbibed the principles of democracy, he had fought its battles during the embargo and the war, yet at no time in his life with the course of the State administration and had he been more truly a democrat than at that moment. He had gone with the party till after Gen Jackson's second election, but from that time to September last he had not exercised his rights is mere mounshine a Tom fool's errand right of suffrage, for the reason mainly that he to Madawaska as the Argus calls it, and ought had found it impossible to shut his eyes to the During that time he had watched the " Signs of the times with a good deal of interest, and final

the democratic pagty, was not by inquiring about

to the name they may choose to adopt. View-

ing it in this light he found it impossible to re-

sist the conclusion that the Whig is the true de mocratic party He defied the world to point to one single measure of Gov Kent's administra tion not truly democratic in the legitimate sense of the term, or that does not clearly tend to promote the true interests of the poorer classes. He had learned that one great principle of the Whig party was that such a system of measures be adopted as would in are the liftorer a good reward for his hire. Hence their desire for a well regulated system of credit. It is the poor man a capital, and tends to promote and encourage the various enterprizes of the day. Such as the building of Roads, Canals, Manufacturing Estabijshments, &c. This in turn creates a demand for labor, and a demand always produces a corresponding increase in price. Where this is not the case where the laborer does not receive a good leward for his hire, the Govern

ment cannot be free On the other hand, where he does, it cannot be otherwise than free, and the reason is obvious, If a poor man, beginning the world, can obtain 6s or 9s per day, it is in his power in a short time to raise hitnself on an equal footing with his most favored neighbor, both as to property and respectability. It is impossible, therefore, that the two charges of rich and poor, as classes, should exist; the rich today may constitute the poor to morrow, and the poor to-day the rich to morrow, but on the other hand, where laboring men can obtain only 6d or 9d per day, as in the hard money Governments of Spain and China, hardly sufficient for sible to raise themselves above the condition in which they happened to be on commencing the business of infe, those who are born rich will increase in riches, but those born poor cannot choose, but must remain poor Wherever.

the Government cannot be free The Whigs desire no new projects, they recommend no now experiments, but merely to go back, and take the old democratic path in regard to the business and corrency of the Country, as pursued by every administration from the commencement of the Government up to 1830 Under that system the people of this country prospered beyond any other people on earth It is a system which was approved by Washington, Jefferson Madison and Monroe. It was then considered a democratic system, and as such was supported by both you and me, and

therefore, this be the case, as before remarked,

if it was democratic then why is it not so now ? To this I made no reply, for in truth I had none to make It was a view of the subject which had never before occurred to me, and I was convinced, and am now a true Whig Since iny return I have laid the same arguments before my neighbors, most of whom are also convinced, and will now act with the Whigs. These facts led me to believe that the agme arguments might have an equally salutary influence upon some of cour readers. If you concur with me in this you are at liberty to lay it before them. My name you already know, and the loces shall know it on the 10th of \_\_

DR. BRANDRETH'S GENUINE PILLS Doctor Sangrado's system still

Lives in the world, to kill, to kill! 1H19 system does indeed live still, and is practised by the very men who laugh at Doctor-Sangrado as a visionary fool. The immaculate Faculty!! Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid, stagnant and corrupt humors IN THE BODY by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, their take

Brandreth's Pills, concocted forth From the pure products of the earth;

They own no after sad alloy,
They often save, but ne'er destroy!

BLEEDING AEWAYS IMPROPER. "For the life of the flesh is in the flood," Leviticus, chapter xvii, v. 11. When the properties of BRANGRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases, for it violent inflaminations, eight or ten of them will take, in the course of two or three hours, more of Friday, as above. For further information the impure humors from the body, by the stomach dy to a J. J. JEROME, Agent, and bowels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of in-Inspiration; whereas bleeding removes the essenhal parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strengths is felt after a dose of this medicine; the body is indeed lightened of a load. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which 84 years have proved never-to do injury, but always good. Is the pulse too high? A dose of these Pills will bring, it down. Is it too low! the same means will increase it to a proper standard. Is it tremulous, showing nervous excitement? the Pills, by soothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made suss of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared) instead of running to a Doctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure, by the use of Brandreth's Pills, along, are submitted with respect, to the unprejudiced portion of the Boston public; ASTHMA CURED. The following extraordi-

nary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich. Ct., deserves, by all persons, a careful perusal. The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no necessity for any other medicine. This is to certify that Thomas S. Brown

My dear Sir. I write a few lines to inform you hat I have been making use of your Vegetable Universal Pills. I have been afflicted with a complaint supposed to be caused by PAINT. I was subject to a great coldness through my whole system, attended with frequent pain and severe cholics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself, I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence, No. 17 Sudbury street, to sny own who wishes to

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you. Believe me to remain.

ISAAC A. HATGH.

THE most safe effectual and economical remody for diseases of the Human Constitution, that

These Pills are composed entirely of materials extracted from Medical Plents, and are warranted not to contain one particle of the cury, or any mineral substance Or Kingley, the inventor of this valu-able medicine, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the functions of the liver; or in other words an increased or diminished secretion of the Bile.

So well is this understood, that it is commen for nersons to say when they feel unwell that they are bilious, meaning that they have too much bile in the stomach. On the other hand, when the flow of hile spasmodic Asthma, and after prescribing for some is diminished, the process of digestion is imperfectly. The Coal of England, to a much harder and time to no effect, the three consulted together, and performed, the patient becomes weak and smarriated. Heavier-Coal containing less hitumen. Lime stone. because nourishment contained in the lood taken into FIRE CLAY and IRON STONE have been discovered would and must result in consumption, and death the stomach is not properly extracted, and the food accompanying some of the measures, and will riected is a crude state. Dr. Kingley is confident that the famous Hygeau Theory so called that "impurity of the blood is the cause of all "wantes," is a great absurdity. Every one who reflects upon containing mining, manufaturing and transthe subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint the functions of the liver are deranged, and the flow of bile increased, it is often taken up by the absorbcourse of a few days, which encouraged him to per-ent vessets and carried into the circulation, and be severe, and now having taken them for about comes mingled with the blood as in Jaundice, when comes mingled with the blood as in Jaundice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the hile, and to remedy it you must correct the secretion of the liver and restore it to a healthy state.

Dr. Kingley has spent much time in experimenting with different vegetable medicines, for diseases of the liver, and now offers his Universal Family Pills es the best, most convenient and cheapest medicine that can be prepared for general use; and in-offering them to the public, he is actuated more by benevolent than pecuniary motives, as the price

of the medicine will.show. Dr. Kingley flatters himself that his long experimenting with vegetable medicines has enabled him to discover the time and only substitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family Pills is, that they have the alterative principle combined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs. purify the blood, invigorate the circulation, and give tone and energy to the nervous system.

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose. They can be taken with safety by persons of any age, and the feeble, the infirm, the nervous, the delicate, are strongthened by their operation, because they clear the system of bad humors. quiet nervous irritabilities and restlessness, from whatever source, and invariably produce sound

steep.
The Family Pills are an invariable remedy for jaundice, sick and pervous headache, dyspepsia costiveness, sickness of the stomach, hearthurn, all ulious complaints, tevers of all kinds, and if taken al the commencement will invariably check their progress, and save the patient from a protracted and dangerous sickness. They are invaluable in nervous and hypochondriscal affections.loss of anielife, and all complaints to which females alone are aduff 1. They sperate as a mild and speedy surge, and are a safe and certain remedy for worms in éhitden.

I might publish a small volume of certificates but consider it unnecessary, at the medicine will recommend itself to all who will make trial of it JOHN KINGLEY
